VEGETINE

THE VERY BEST MEDICINE

Dyspepsia and Indigestion.

NEWTON, N. H., March 27, 1877.

Dear Sir:—Once more I take the pen to praise the king of Medicines, Vegetine. When I began to take Vegetine two years ago with such marked benefit, my friends thought it was a stimulant effect, and would soon subside, leaving me as bad as before. Thinking that some of those who read the testimonial that I wrote at that time, might think the same, I write once more to satisfy them on that point. Since I began to take Vegetine almost two years ago, I have gained steadily until the present time, at which I am enjoying my former health, and consider myself cured by Vegetine. Two years ago I was as low as a man could be and live. I was confined to the bed for eight months, and given up by eight doctors, some of the most skilled in the State. They said I had several diseases, including consumption, heart disease, and several others, equally fatal, and must die. But Vegetine, taken as a last resort, brought me through and to that I owe my life. Since my health began to improve, I have made a study of disease, and find the cause of my symptoms to have been Dyspepsia or Indigestion, and I also find that five cases of disease in every six, are effects of the same cause. When the food is not properly digested in the stomach, it becomes a poisonous, putrid mass, which is absorbed into the blood, and by that is conveyed to all parts of the system, causing symptoms of disease in any or all of the organs of the body; and if this cause is not removed, these symptoms become in time organic diseases. I have given Vegetine a thorough test in my own case, and also in that of many of my acquaintances, and find it to be the very best medicine extant for Dyspepsia or Indigestion, one of the symptoms of which is usually the belief that you have some organic disease. I am well known in the towns of Goffstown, Weare, and Newton, of this State (N. H.), and can furnish an undeniable corroboration of all these statements. I will willingly answer any letters of inquiry in regard to my own case, or the use of Vegetine.

Yours truly, A. J. BIRCHICK.

If VEGETINE is taken regularly, according to directions, a certain and speedy cure of Dyspepsia will follow its use.

VEGETINE

FOR

ASTHMA.

PHILADELPHIA, PA.

Mr. H. R. STEVENS:—

Dear Sir:—For the last fifteen years, during the months of May and June, I have been afflicted with what the doctors called Asthma. It was very distressing, rendering me miserable, so that I dreaded its coming on. I was recommended to use Vegetine. I took two bottles before I expected the attack, and was entirely relieved. I feel grateful to Vegetine.

VEGETINE has restored thousands to health who had been long and painful sufferers.

VEGETINE

FOR

Pimples and Eruptions of the Skin.

H. R. STEVENS:—

My mother has used your valuable medicine "Vegetine" for Pimples and Eruptions of the skin, and has found great relief by the use of it. I can recommend it for such complaints.

R. A. BLACKWELL, Uniontown, Union Co., Ky.

PIMPLES AND

Humors on the Face.

In this condition of the skin, the VEGETINE is the great remedy, as it acts directly upon the blood. It cleanses and purifies the blood, thereby causing humors to disappear. By internal treatment all impurities are thrown out. VEGETINE gives good circulation to the blood, relieving the inflamed or congested organism, restoring the health, giving a good, clear complexion.

WASHINGTON CORRESPONDENCE.

From our Regular Correspondent.

WASHINGTON, June 2, 1879.

Though no formal decision to that effect has been made, it seems to be the general understanding that the Democrats will now attempt to pass the two appropriation bills with clauses stating specifically what the money appropriated shall be used for, and that none of it shall be used for the transportation of troops to the polls, or for their services at the polls, and that none of it shall be used for the payment of supervisors and deputy marshals. It is extremely doubtful if Mr. Hayes would approve such bills. Some of the stalwarts, however, say that he can safely approve the army bill, and then, as commander-in-chief of the army, disobey it. After passing these bills, it is further understood, congress will adjourn.

To-day there will be offered a bill providing for a thorough survey of the Mississippi river. There will probably be little opposition. Senator Edmunds or Mr. Conger will object, of course, but the country has fairly entered upon the work of improving that great river, and will hardly look with favor upon the opposition of a few dyspeptic people.

Republicans are doubtful whether the nomination of "Charley" Foster for Governor of Ohio is a strong or weak one. It is probably a stronger one than Judge Taft's would have been. But, whether it is not, the duty of the Democrats is the same. They must nominate their strongest man. They must elect the governor and control the legislature. More depends upon it than upon elections in any other states. To do this—to make sure of it—Senator Thurman should be nominated.

His few enemies may say that success under him would compel his nomination for the presidency, and his doubting friends may say that defeat in Ohio would prevent such nomination. But such considerations should have little weight. All acknowledge that the distinguished Senator can secure more votes than any other man, and that is what should govern.

Mr. Warner gives up his coinage bill. It is before an unfriendly committee in the senate, and will probably never be reported. The grief of silver men, however, will be moderated by the fact that the bill, as it passed the house, had little in it of value to their cause.

A report was telegraphed from here on Saturday that "Bob" Ingersoll had died. It was a mistake. A brother of his, E. C. Ingersoll, formerly member of Congress from Illinois, died, and hence the mistake. The distinguished atheist and friend of Blaine still lives.

THE DEATH RATE OF our country is getting tearfully alarming, the average of life being lessened every year, without any reasonable cause, the death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day-life we are apt to overlook the dangers attending it and often find too late, that a Fever and Lung trouble has already set in. Thousands lose their lives in this way every winter, while had Roscoe's German Syrup been taken a cure would have resulted, and a large bill of a doctor been avoided.

For all diseases of the throat and lungs, Roscoe's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every druggist in the country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

A MASTERLY STROKE OF GENIUS.

HOW TO GET OFF WITH THE OLD LOVE WITH OUT GETTING INTO COURT.

(Detroit Free Press.)

The other day a muscular looking young fellow, having an odor of the stables about him, entered a Detroit photographer's establishment and explained that he would like to have about one photograph taken, but on learning the price he concluded to invest in a tin-type. After taking his seat in the chair he shut up one eye, drew his mouth around one side, stuck up his nose and patiently waited for the operator, whose astonishment caused him to exclaim:

"Good gracious! but you don't want to look that way to get a picture
